

RICE GROUP

By: Talia Casillas and Nicole Olvera

WHAT PROBLEMS ARE THE SCIENTISTS TRYING TO SOLVE?

- Food shortages
- People's health
- Length of time to grow rice

WHY ARE THESE IMPORTANT PROBLEMS?

- People need more food
- Bodies need healthy food
- Drought resistant hybrid

HOW CAN WE HELP THEM?

- Scientists don't have to grow rice to examine it
- Can use plant models to study morphology of rice plants

OUR DATA AND MODEL
